

AADYA STONES

The Strength Behind Thailand's
Finest Surfaces

Premium natural stone, engineered stone, tiles, and surface solutions. Sourced globally, delivered with precision.

Trusted by contractors, developers, architects, and retailers across Thailand.

Who We Are

Aadya Stones is a *Thailand-based* materials platform supplying premium *natural stone, engineered stone, tiles, and surface solutions* for *residential, commercial, and large-scale construction projects*.

We support a diverse client base that includes developers, contractors, architects, and established retail partners, ensuring both project reliability and market continuity.

Backed by direct global sourcing, local warehousing, and strict quality control, we deliver materials that meet design intent, timeline requirements, and long-term performance standards.

We are built for projects and structured to scale through trusted retail networks.

Our Role in the Construction Ecosystem

We sit at the intersection of global production and local execution.

Our role is to simplify material sourcing by removing uncertainty around:

Quality consistency

Pricing transparency

Delivery timelines

Site coordination

By controlling the supply chain from factory to warehouse, Aadya Stones becomes a reliable partner, not just a materials vendor.

Global Sourcing

Aadya Stones **combines global sourcing strength with significant local infrastructure** to support partners and projects across Thailand.

We have:

Direct relationships with multiple manufacturing plants

Access to granite quarries, engineered stone facilities, tiles manufacturing plants, custom artists etc.

Multi-country sourcing for materials: India · Italy · Turkey · China · Egypt

Our Thailand-based Infrastructure is for **ready stock, distribution power and project planning.**

This structure allows us to deliver **consistent quality, competitive pricing, and reliable timelines** as it includes:

3 operational warehouses

9 rai of total land area

60,000+ sqm warehousing & storage capacity

Platform to custom process and deliver our materials

Local Control

Our Brand Portfolio

To serve different market needs with clarity and focus, Aadya Stones operates through 2 specialized brands:

Charoenchai

Natural and Engineered
Stones

Craft-led sourcing, durability, and timeless surfaces.

Vitalia Decor

European-Inspired
Porcelain Surfaces, Decor
Items and more

Design-driven collections for
modern living.

Each brand is supported by the same Aadya Stones sourcing, QC, and logistics backbone.

OUR PRODUCT UNIVERSE

Porcelain tiles • Porcelain slabs •
SPC flooring • Veneer

Decor Products

Natural Stone Monuments • Religious
Stone Artifacts • Modern Art Decor

Other Solutions

Customized Orders • Multiple Finishes •
Accessories • Custom Sizing • Logistics
Coordination

Our portfolio is built to scale with your needs.

How We Operate

Our operating model is designed around your success.

1. Direct Global Sourcing

Factories and quarries without any unnecessary intermediaries.

2. Local Control & Execution

Warehousing, sampling, Strict Quality Control, and delivery managed in Thailand.

3. Project Service

Timelines, coordination, after-sales support, and clear communication.

4. Retail Distribution

Full 360 assistance from product to your sales process.
This structure reduces risk and improves predictability for all clients.

A Structured Materials Assurance Platform

Aadya Stones operates a materials assurance platform designed to reduce risk, improve predictability, and protect project outcomes, from sourcing through site delivery.

This platform integrates quality governance, batch control, and execution discipline across every stage of supply.

PLATFORM PILLAR 1

Pre-Sourcing Governance

Before materials are committed

Factory and quarry selection based on defined quality thresholds

Specification alignment before production or allocation

Material suitability checks by application (interior, exterior, traffic, climate)

PLATFORM PILLAR 2

Batch & Quality Control

Before import and dispatch

Thickness and calibration verification

Surface finish and edge inspection

Lot-level tracking for repeatability

PLATFORM PILLAR 3

Execution & Delivery Control

Before site impact

Packaging and loading standards to prevent transit damage

Batch integrity maintained through warehousing

Coordinated dispatch aligned to site timelines

Issue resolution handled upstream, not on site

WHY CLIENTS CHOOSE AADYA STONES

*Predictable material
quality across batches
and shipments*

*Transparent pricing with
no unnecessary middle
layers*

*Local stock that reduces
lead times and site
delays*

*Strong coordination across
sourcing, warehousing,
and delivery*

*Clear communication
with bilingual (TH / EN)
support*

*Long-term reliability over
short-term pricing
advantages*

We are structured not only to provide *competitive pricing* but also to *reduce risk*, not pass it downstream.

PROOF AT SCALE

Operating at Scale

500+

Active clients
across projects and retail
networks

250+

Active SKUs
across stone, tiles, and
other categories

12

Product lines
covering both residential
and commercial needs
